

Standards Registered Under Continuous Maintenance:

- **ANSI/GBI 01-2019: *Green Globes Assessment Protocol for Commercial Buildings***

This Standard is maintained under continuous maintenance procedures. GBI publishes notices for meetings and calls for public comment in ANSI Standards Action as required. GBI has a list of stakeholders that will receive email announcements when any maintenance activity occurs to the recommended practice. GBI’s website contains a place for new stakeholders to register.

Comments or proposals for revisions to any part of the Standard may be submitted to GBI at any time.

The following person(s) may be contacted by those interested in submitting changes:

Name: Emily Marx

E-mail: comment@thegbi.org

For ANSI/GBI 01-2019 – Year 1 = 2019, Year 2 = 2020, and Year 3 = 2021

Program for Periodic Publication

Year 1 = 2019	
Usually June/July	Solicit new Consensus Body members.
Usually September/October	Solicit requests for change from Consensus Body and public/stakeholders (usually combined Consensus Body ballot and public review). Allow at least 45 days to submit. Also solicit new Consensus Body members if needed.
Year 2 = 2020	
First meeting usually January	Review voting results and new requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review, which to reject and which to defer to the next review cycle.
Usually by September	Document first meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
October	Review unresolved objections and solicit requests for change from Consensus Body and public/stakeholders.
Year 3 = 2021	
Second meeting February	Review unresolved objections and new proposals. Agree on which to accept (with or without change), and which to reject.
Usually by March	Document second meeting results and notify Consensus Body members and commenters of Consensus Body decisions. Solicit requests for change from Consensus Body and public/stakeholders.
Second meeting June	Review unresolved objections and agree on which proposals for change to accept (with or without change), which to reject and which to defer to the next review cycle.
Usually by July	Document third meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
Usually August	Conduct Recirculation Letter Ballot and, if necessary, public review. Allow at least 45 days to submit

September	Review ballot results and respond to comments. If needed and as time permits, begin working on any deferred requests for following year's revision cycle. Solicit new committee members.
Usually September	Process procedural appeals
December	Publish revised standard.
January 2022 (new cycle begins)	Solicit new committee members.
