GREEN GLOBES MULTIFAMILY
& MULTIFAMILY PERFORMANCE PLUS
Green Globes Multifamily Performance Plus (NC & EB)
➢ 25% consumption savings req.

Green Globes Multifamily for New Construction (NC)
• Designed specifically for new construction, major renovation and addition projects of a residential building on a multifamily property

Green Globes Multifamily for Existing Buildings (EB)
• Designed specifically for operation and management of existing buildings and minor renovations of a residential building on a multifamily property.

Other buildings on the property, such as leasing offices, clubhouses, and community centers should use the standard Green Globes for New Construction or Green Globes for Existing Buildings program and technical manual.
Green Globes Multifamily and Green Globes Multifamily Performance Plus provide certification options that meet the needs of owners and project teams with multifamily projects and includes:

- Minimum requirements for energy and water efficiency that ensure resource conservation through operations and tenant best practices
- Flexibility and multiple pathways to success
- Question set that prompts critical thinking
- Third-party Assessor on-site review
- GBI Client Service and technical staff who deliver step-by-step guidance
Criteria with a 🏙 symbol denotes a N/A response for low and mid-rise buildings but may apply to high-rise buildings.
