

GREEN BUILDING INITIATIVE POSITION DESCRIPTION

POSITION TITLE: MANAGER, CLIENT SERVICES & ENGAGEMENT

Organization

The Green Building Initiative (GBI) is an international nonprofit organization whose mission is to reduce climate impacts by improving the built environment through education, standards, and assessments developed by an inclusive and collaborative global network.

GBI makes aspirational goals achievable through user-friendly tools built upon comprehensive standards and supported by outstanding staff and expert assessors. As a nonprofit community, we are educators and coaches first, supporting performance improvement of all buildings.

How we do it

Our initiatives promote the use of GBI's Green Globes® building rating system for private commercial buildings and GBI's Guiding Principles Compliance® third-party assessment program for achieving federal building sustainability requirements. This third-party certification lowers risks for owners and ensures that both buildings and the teams who build and operate them are better able to achieve desired performance outcomes. We measure our impact in achieving our mission in several ways, including growing the number of building owners that achieve certification of individual buildings, building projects, and portfolios of buildings.

How we are unique

There are many unique attributes to GBI. Important to candidates for employment, we are a 100% virtual organization.

Compensation & Benefits

\$57,000 + association-wide bonus opportunity, full-time employee with medical, vision, dental, life, short- and long-term disability insurance, and a retirement savings matching program. GBI employees enjoy 48 hours of guaranteed sick leave, paid holidays, and paid-time-off (PTO) that is accruable based on a schedule.

Travel Requirements

Client services managers are requested to travel and participate in events where GBI presents, sponsors, and hosts booths. These events are throughout the year and efforts are made to spread out assignments between staff members that may be location dependent. Travel requirement is estimated at 10-15% or two times per quarter on average.
