GBI'S GREEN GLOBES® MULTIFAMILY PROTOCOLS

GREEN GLOBES MULTIFAMILY CERTIFICATION INCLUDES:

- Minimum requirements for ventilation (NC) and energy efficiency that ensure resource conservation through operations and tenant best practices
- A question set that prompts users to think critically about their project
- Flexibility and multiple pathways to success
- Third-party assessor onsite review providing assurance of certification claims
- GBI customer service and technical support for step-by-step guidance

AVERAGE COST TO CERTIFY: \$13,285

Optional expediting services are available to deliver your final report and certification prior to loan close.

GBI provides certification options that meet the needs of property owners, project teams, and portfolio managers with multifamily projects pursuing financial incentives and GRESB reporting.
